

# Careers Resources

Autumn 1 '21

The new and exciting **TeenTech Live Build Your Future** programme helps students aged 11-19 understand exciting career opportunities in the connected cities of the future through fun, interactive and engaging live sessions, and challenges set by industry experts to develop students' skills.

The programme provides students with access to industry experts from Arup and other local and global organisations.

**World Skills UK Spotlight Talks** bring together the UK's leading employers and apprentices to inspire young people, from all walks of life, to take up technical career routes and apprenticeships. The last spotlight talk focused on digital skills and careers and was in partnership with BCS, the Chartered Institute for IT. Students can register to watch the talks on demand here:

At the start of term, all students were emailed sign in details for **Unifrog**. Unifrog is an online destinations platform where students can explore, find and apply successfully for their best next step. Unifrog informs decisions about GCSE choices and allows students to explore different careers and routes into them. It will be used throughout the school to explore pathways and raise aspirations. Please find time to explore the website with your child. A great starting point is the Interests Profile or Personality Profile Quiz: [www.unifrog.org](http://www.unifrog.org) Please contact Mrs Witting if your child cannot find their sign in details
