

Year 12 A Level Art – Structure			
<p>During Year 12 students will complete their first unit, titled Structure, to submit for assessment for component one, the personal portfolio. Students will have the opportunity to explore a variety of artworks and artists. As a result, students will experiment with media, process, and technique, as well as record their own ideas through photography, drawing and annotation. Ultimately, students will combine their knowledge, understanding, skills and intentions to produce a drawing minor final piece, and a painting major final piece.</p>			
Autumn Term		Spring Term	Summer Term
What will be learned?	<p>This project requires students to:</p> <ul style="list-style-type: none"> actively engage in the creative process of art, craft and design in order to develop as effective and independent learners, and as critical and reflective thinkers with enquiring minds develop creative, imaginative and intuitive capabilities when exploring and making images, artefacts and products become confident in taking risks and learn from experience when exploring and experimenting with ideas, processes, media, materials and techniques develop critical understanding through investigative, analytical, experimental, practical, technical and expressive skills develop and refine ideas and proposals, personal outcomes or solutions with increasing independence acquire and develop technical skills through working with a broad range of media, materials, techniques, processes and technologies with purpose and intent develop knowledge and understanding of art, craft and design in historical and contemporary contexts, societies and cultures develop an awareness of the different roles and individual work practices evident in the production of art, craft and design in the creative and cultural industries develop an awareness of the purposes, intentions and functions of art, craft and design in a variety of contexts and as appropriate to students’ own work demonstrate safe working practices in art, craft and design. 		
	<p>During autumn term Year 12 students will explore a range of contextual sources, from artists to artwork, to take a look at possible creative avenues in response to the topic title. Students will select and produce artist information pages, and subsequently respond to inspiration by producing several sketchbook drawings and compositional developments.</p>	<p>Students will continue to generate their own primary imagery through photography and then develop their own work through recording and experimentation.</p>	<p>During summer term, students will focus on developing and refining their final piece ideas. Students will develop and evidence an understanding of their creative intentions, based on the evaluation of the strengths and weaknesses. Students will continue to explore a vast range of material, technique and process experiments, whilst continually assessing against the effectiveness/desired outcomes.</p>

<p>Content sequencing</p> <p>(Where does this fit – what have they done before which supports it, where does it link with future units?)</p>	<p><u>Prior Knowledge:</u></p> <ul style="list-style-type: none"> Read, research and produce statements and analysis on key artists and artworks. Incorporating conceptual stimulus into art making – reading of recent and historical events Record ideas in a variety of methods: Drawing, photography, and annotation Experiment with a variety of techniques, processes and materials Realise final outcomes through reflection and evaluation <p><u>Future Knowledge:</u></p> <ul style="list-style-type: none"> Read, research and produce statements and analysis on key artists and artworks. Incorporating conceptual stimulus into art making – reading of recent and historical events Record ideas in a variety of methods: Drawing, photography, and annotation Experiment with a variety of techniques, processes and materials Realise final outcomes through reflection and evaluation
---	--

	<i>Due to students responding to the topic title in their own individual ways, in any choice of media, future learning for all students is catered to their own creative intentions.</i>
Memory for Learning (What skills will students be required to exhibit?)	Students regularly have the opportunity to: <ul style="list-style-type: none"> • Learn information about artists, art movements, art works, materials and techniques prior experimenting/practising themselves. • Encounter memorable images, which connect materials and techniques to first hand life experiences. • Experience topics in art through several senses • Receive directions in multiple formats: demonstration/modelling, verbally, peer discussion, written on the board, final exemplars. • Link information to physical practise, and project to project, through the use and reflection on the basic elements of Art. • Repeat creative process patterns by looking at contextual sources, then experimenting, then recording ideas, and finally the creation of a final piece. • Be active readers • Practise retrieving prior knowledge
Powerful knowledge in the classroom (what areas/themes/concepts will be explored)	The topic intends for our pupils: <ul style="list-style-type: none"> • To increase skillset in the use of the basic elements; line, tone, texture, colour, pattern, shape and form. • To work from first hand observation, experience, imagination and other sources. • To investigate how to express and realise ideas using the basic elements and qualities of a range of media. • To draw to express perception and invention, to communicate feelings, experiences and ideas. • To make informed choices about media, techniques and processes. • To make purposeful images and artefacts. • To explore and experiment with ideas, materials, tools and techniques. • To explore the visual, tactile and other sensory qualities of their own and others' work. • To engage with ideas, images and artefacts, identifying how values and meaning is conveyed. • To analyse, select and question critically, making reasoned choices when developing personal work. • To reflect on and evaluate their own and others' work, continuously adapting and refining during the creative process. • To learn key technical terms.
SEND in the classroom (How will support be seen?)	<p>Some of the ways we as a department support SEND in the classroom will simply be an extension of general good practice in the classroom, whilst other, more specific strategies may be particularly useful in supporting particular needs.</p> <p>Teachers ensure that those with SEN needs are individually catered for, to ensure appropriate solution to any potential barriers to learnings and/or outcomes. In a general sense, teachers can provide support within this project by ensuring:</p> <ul style="list-style-type: none"> • Demonstrations are carried out via a visualiser, to support accessibility and safety. • Writing frames with both questions and sentence starters, to support critical thinking and creativity. • Key points and notes are printed off, to avoid the need for copying from the board. • Seating plans are required in all classes, to ensure students are able to communicate, respond and interact with each other and the teacher in discussions. • Use of middle/front table resource collection spots, so that materials and equipment can be found easily and put away in the right place. • Make tasks accessible through students using specialist resources where appropriate: i.e. scissors. • Allow time for sensory exploration. Use a variety of materials and processes to make images and artefacts. • Use real objects related to the topic – e.g. for work on texture, use a range of natural objects such as clay, wool, bark, stones, shells and leaves. Help students to understand their different qualities and characteristics through touching, smelling, seeing and hearing. • Support activities where students do not have the necessary mobility and dexterity – e.g. using software or tools like a graphics tablet to simulate traditional drawing materials. • Enable students to research recommended websites online – e.g. websites of museums, galleries and exhibitions – to support or supplement other modes of research.

	<ul style="list-style-type: none"> • Allow teachers and students to review and evaluate work or consider next steps by viewing scanned or photographed images, forms or examples of students' work from previous lessons on the interactive whiteboard. • Managing group work sensitively • Liaising with the CTA, to ensure risk assessment of lesson content, for those the CTA is supporting. 		
Homework	Students are set weekly homework which is independent to them and their individual projects. Students received tutorial based feedback in lessons, and are advised on what to do/look at next.	Students are set weekly homework which is independent to them and their individual projects. Students received tutorial based feedback in lessons, and are advised on what to do/look at next.	<p><u>Homework 1</u> Personal study project proposal</p> <p><u>Homework 2</u> Personal study introduction</p> <p><u>Homework 3</u> Personal study art work 1</p> <p><u>Homework 4</u> Personal study art work 2</p> <p><u>Homework 5</u> Personal study art work 3</p> <p><u>Homework 6</u> Personal study conclusion and bibliography</p>
Assessment	<p>Students receive written and verbal feedback in accordance to the assessment objectives.</p> <p>Mainly, students receive tutorials in lessons to help them reflect on their projects so far and to encourage students to consider their creative intentions. Students receive written feedback directly for A01, A02, A03 & A04.</p>		

Literacy opportunities	<ul style="list-style-type: none"> • Read, research, analyse, critique and evaluate key artists and their artworks • Read, research, analyse, critique and evaluate art movements • Analyse, critique and evaluate their own creations, using sequencing • Incorporating story telling/concepts into art making
Numeracy/Computing skills	<ul style="list-style-type: none"> • Symmetry • Geometry • Proportion • Ratio • Rule of thirds • Perspective • Scale • Colour mixing

Behaviours of Excellence (Character Development)	<ul style="list-style-type: none"> • Meet and greet • Whole class and individual praise • Seating plans • Build relationships with pupils • Opportunity to express/creative • Establishing trust with materials/techniques • Help station • Top tips
Equality in the classroom (Diversity opportunities)	<ul style="list-style-type: none"> • Studying artists who were from poorer, lower-class backgrounds • Studying artists who exhibited problems with mental health • Studying artists who have been successful in their field
