

SPEAKERS for schools

You can now migrate across to the New Speakers for Schools Portal to view all the guest speaker and virtual work experience opportunities in our local region. Please find the guidance for using the new portal attached.

For anyone with students interested in **Healthcare professions**, NHS England and Improvement will be putting on an exclusive myth buster session **for educators** on the 10th March @ 3.30pm, and a flyer for this session is also attached to this email.

If your students have questions about careers, you can ask them to log on to Unifrog www.unifrog.org and search the careers library, or the subjects library for careers inspiration.

If you have students who are really unsure of what they might like to do, they can try out the personality or interests quizzes.

If they have forgotten their password, they can change this at unifrog.org/reset-password

And don't forget there are resources that can support your teaching too. Please let me know if you would like some support accessing these.

British Science Week is coming up 11th – 20th

March <https://www.britishscienceweek.org/>

BT have launched **Virtual British Science Week** from 14th–18th March 2022. The theme this year is "Growth".

For the first four days of British Science Week, BT will explore a different part of STEM. The final day will then feature 'STEM in action', where we look at Robotics and focus on how all parts of STEM are required to work together for this area of Technology. The content is ideal for years 7–13.

Topics for the week

14th - **SCIENCE**: Digital Forensics

15th - **TECHNOLOGY**: Software & Programming

16th - **ENGINEERING**: Digital Manufacturing

17th March - **MATHEMATICS**: Evolution of Computing

Friday 18th March - **STEM IN ACTION**: Robotics

Visit BT's [Virtual British Science web page](https://www.britishscienceweek.org/) and meet Luke Johnson, the STEM Engagement & Customer Showcases Research Manager at BT, who will tell you all about what to expect during this exciting week.

ADASTRAL PARK
VIRTUAL EVENT

The Into Games Careers Festival 2022

Is taking place **23rd – 26th June**. Students can meet representatives from all our studios, find out what jobs they have and watch panels on topics like breaking into Quality Assurance, Career Paths and How to Start Applying for your First Job in Games.

Do you need some careers resources to support your teaching?

Have you recently taught a careers related activity?

Please let me know!
