

**Parent/Carer of «Name»**

**«Address»**

10 June 2021

Dear Parent / Carer

**«Name» - «Feeder»**

After a lot of discussion and thought we will not be able to offer the face-to-face Year 6 Induction days this year. This was an extremely difficult decision, but under the current situation and in the spirit of protecting our community and the communities of other schools, we felt this is the safest option.

We will, however, be providing a wealth of transition materials on our Virtual Platform on the school's website again to allow the Year 6 pupils to experience a taste of Copleston High School and what they can look forward to. The platform will have lots of tasks for your son and daughter to do; tutor and staff information, a virtual tour and many other exciting activities.

This will become LIVE on our school website under Parents/Year 6 Transition from 8.30 a.m. on 5<sup>th</sup> July and will be available to access over the following two-week period. Miss Bradshaw (Leader of Learning for Year 7) and I will also be uploading a presentation for you to view from 8<sup>th</sup> July, which we hope you will find useful.

I know and understand this is a disappointment, as much for us and it is for you and your child, but we must continue to be safe. We kindly ask that you do not contact the school for further information about this decision but instead we look forward to welcoming your child in the autumn. We will be offering further transition resources and materials to help every child with their move to Copleston in September.

Kind regards and thank you for your support during this time.

Daniel Pheasant  
Transition Coordinator
